If there are problems, it will draft an email to the person in the bill of lading that should be contacted for issues for you

**They want to itemize it and print of a more legible packing slip - but they actually just want to scan it

Aggregate duplicate listings

USPS API - instead of using UPS worldship, it all happens in Flow - can we actually do this? (Also FedEx and UPS

-add your account numbers into Flow and we create that integration

-you should be able to input the box sizes

They pull the same box over and over - associate the size of the box to the part number

Pick Item: Modern Leather Sofa

Location

Find item at: Shelf 3, Bin A-12

Bin: A-12, Shelf: 3

Scan to Pick

Scan the bin, OR manually enter the product that you've picked

They sign and then it creates a packet that gets emailed to the manufacturer

What to include - customer signature, packing slip, etc - send immediately or in a batch at the end of the day

**Download the picked tickets and the PO, and batch that to the manufacturers at the end of the day
